SUMMARY

I'm a Computer Science graduate with a passion for web and mobile development. I completed an internship as a web developer using React, Laravel, WordPress, and Figma. Eager to contribute to dynamic development teams and continue growing as a developer.

EDUCATION

COLUMBAN COLLEGE INC. Olongapo City, Philippines
Bachelor of Science in Computer Science, **TWA:** 1.27 June 2025
Thesis: DAILEKTO: A Language Learning Application using Sambal Dialect
Dean's Lister, Honorable Mention

INTERNSHIP EXPERIENCE

Web Developer Intern – **iFormatLogic IT Solutions** July – December 2024

- I am engaged in hands-on projects and have received training in web development using technologies such as HTML/CSS, React, Laravel, WordPress, and MySQL.
- Applied responsive design techniques to develop user-friendly web pages.
- Collaborated with team members to complete developmental tasks under supervision.
- Enhanced skills in debugging and optimizing code to improve performance.

SKILLS

Languages: HTML/CSS, Javascript, Typescript, PHP.
Databases: MySQL, PostgreSQL (Supabase), NoSQL (Firebase).
Frameworks & Libraries: Laravel, React (Next), Bootstrap, Tailwind.
CMS: WordPress (Elementor).
Tools: Git, Figma, Canva, Illustrator, Photoshop.
Soft Skills: Time management, Problem-solving, Collaboration.

PROJECTS

DAILEKTO: A Language Learning Application using Sambal Dialect (School Project) – 2025
Used React Native to build the mobile app, Gemma for the LLM model, and Firebase for the backend and authentication. Built most app functionalities like lessons, leaderboards and profile customization.
GitHub Link: *https://github.com/lush09/DIALEKTOapp*

Callio: Gamify Your Fitness Journey (School Project) – 2024
Used React Native to build the mobile app and SQLite for the backend. Mostly involved in the combat system, quizzes, and overall database design.
GitHub Link: https://github.com/lush09/callio-fitapp

Web-based Editorial Platform (School Project) - 2023
Mostly involved the backend using PHP and MySQL, integrated MSAL as an SSO using Javascript. Also helped build some of the front-end using HTML/CSS with Bootstrap.
